Second International Conference on Recent Trends in Communication Engineering and Network Technologies – CENT 2024, will be held during Dec 10-11, 2024; in Mumbai, India. CENT aims at bringing together the Professors, Researchers, and Students in all areas of Computer Science, Information Technology, Computational Engineering, Communication and Network to a common forum, and to provides an international forum for the dissemination of original research results, new ideas and practical development experiences which concentrate on both theory and practices. The CENT conference is jointly organised by the **IDES** and the **Association of Computer Electrical Electronics and Communication Engineers (ACEECom).**

We seek novel submissions in all fields of science that involve the scientific study of atmosphere, oceans and biosphere, as well as the Computer Science, Information Technology, Computational Engineering, Communication and Network, with an emphasis on complete end-to-end systems. The conference will be held every year as a continuing activity to enable the Physicist and Chemist, to further their research and academics. All the accepted registered papers will be published by the **Grenze Scientific Society** and it will be made available in the **GRENZE International Journal of Engineering and Technology (GIJET),** and will be indexed in **Scopus**.
